OBJECTIVE

Aspiring software developer with a strong foundation in computer science and full-stack development skills using MERN technologies (MongoDB, Express.js, React, Node.js). Enthusiastic about building responsive web applications and expanding expertise in full-stack development through real-world projects. Seeking an opportunity to contribute to development projects & grow in a collaborative tech environment.

EDUCATION

B.C.A

2023 – 2026

University Institute of Computer Science and Applications, RDVV, Jabalpur

SKILLS

- C++, JavaScript (ES6+), TypeScript
- React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Node.js, Express.js, Next.js
- DSA, OOPs
- VSCode, Git, GitHub, Postman, RESTful APIs, JWT Authentication, AI Integration, OpenAI API
- MongoDB, Data Modelling, CRUD, Mongoose, SQL MySQL
- Netlify, Vercel, Docker
- Analytical & Problem-solving, Detail oriented, Critical Thinking, Communication & Interpersonal Skills, Teamwork, Willingness to learn

INTERNSHIP

Full-Stack Web Developer Intern | Starial Private Limited

Nov 2025 - Jan 2026

Contributed to existing applications by developing new backend APIs using Node.js and Express.js, enhancing React.js components, implementing authentication and role-based access control, and working with MongoDB to manage application data.

Nodejs Intern | Cryptch IT Solutions

April 2026 - Jul 2026

Developed and maintained backend applications, building 15+ RESTful APIs with JWT-based authentication and authorization. Integrated MongoDB using Mongoose, tested APIs using Postman and optimized API performance for better response times.

ACADEMIC PROJECTS

- **Collaborative Task Management System**
 - o Built a **MERN-based collaborative task management system** with **authentication, authorization, and RBAC** for secure role-based access.
 - o Implemented **task assignment, priority tracking, and status management** to improve team collaboration and workflow tracking.
- **AI Resume Builder with Job Description Match**
 - o Built an **AI Resume Builder (MERN stack)** that customizes resumes based on job descriptions using the **OpenAI API**.
 - o Created a **resume scoring system** that analyzes job fit, highlights skill gaps, and provides a **shortlisting probability score**.

ACHIEVEMENTS

- 1st Position - **Hack and Make Hackathon** (CODE IT track) | 2026
