

Ms. AADESH BISWAS

Analytics & AI Professional

 aadesha.biswas@gmail.com  +91-8319842489  [LinkedIn](#)  [GitHub](#)  Bengaluru

Analytics & ML/AI Specialist with 4+ years of experience delivering high-impact business intelligence solutions across business, finance, insurance, and HR domains. Proven expertise in building scalable Power BI dashboards, automating reporting & ETL workflow & implementing Machine Learning algorithms. Proficiency in Python, SQL & adept at partnering with stakeholders to drive data-informed decisions, improve operational efficiency, and support strategic planning initiatives. Committed to driving innovation through Artificial Intelligence and Advanced Statistical Modeling in high-growth technical environments.

Skills

- **Tool & Technology:**
 - **Programming & Analytics:** Python, Pandas, NumPy, Matplotlib, Seaborn, Git/ GitHub
 - **AI/ML Tools:** PyTorch, TensorFlow, Scikit-learn, Model Versioning, CI/CD, MLflow
 - **BI & Visualization:** Power BI, DAX, M Query, RLS
 - **Excel:** VBA, Macros, Advanced functions, Power Query
 - **Data & ETL:** SQL, Data Collection, Cleaning, Modeling, Manipulation, Validation, Integration, Wrangling, Management, Lake, Warehouse, Data Governance & Security, Data Audit
 - **Enterprise Tool:** SAP, SuccessFactors, Workday, QuickBase
 - **Microsoft:** Power Automate, Planner, Project, SharePoint, Visio, Forms, Power Apps
- **Business & Analytics:**
 - Business Intelligence, Workforce & People Analytics, KPI Design & Performance Measurement
 - Dashboards, Data Analysis, Predictive, Data Visualization, Statistical & Trend analysis
- **Professional Skills:** Stakeholder Engagement, Cross-functional Collaboration, Strategic Planning, Project Management, Change Management, Process optimization, Innovation & Automation

Work Experience

ACCENTURE, Bangalore

Analytics and Modeling Analyst

Apr 2025 - Present

- Delivered end-to-end analytics and predictive modeling solutions across finance, HR, and business domains, enabling data-driven strategic decisions.
- Built automated ETL pipelines and Power BI dashboards using Python, SQL, Power BI, and Excel VBA, reducing reporting turnaround time by 30%.
- Developed data models and applied statistical analysis, regression, and machine learning techniques to improve forecasting accuracy, business planning, and cost optimization.
- Performed exploratory data analysis (EDA), trend analysis, and root cause analysis (RCA) to identify performance drivers and uncover 10% operational efficiency opportunities.
- Collaborated with cross-functional stakeholders to translate business requirements into scalable analytics and AI-driven solutions, improving reporting automation and decision support.

G R INFRAPROJECTS LIMITED, Gurugram

Assistant Manager

Apr 2024 - Mar 2025

Senior Executive

Apr 2023 - Mar 2024

Executive

Jun 2022 - Mar 2023

- Delivered structured, data-driven insights that informed strategic business decisions, operational enhancements via executive-level reports high-impact presentations & mitigating risks.
- Led cross-functional collaborations, partnering with stakeholders to develop customized analytics solutions, addressing business pain points, and driving data-driven decision-making.
- Architected scalable BI infrastructure and 15+ interactive dashboards using DAX and M Query, streamlining reporting & reducing manual efforts by 60%, while enhancing operational efficiency by 15%.
- Designed and deployed machine learning models (Classification/Regression) to analyze operational inefficiencies, resulting in a 10% cost reduction through data-driven resource allocation.
- Automated data processing workflows, improving data accuracy, compliance, and reporting efficiency, reducing manual intervention and error rates by 10%.

INFOSYS BPM, Bengaluru

Process Executive

Dec 2018 – Apr 2019

- Customer Support & Technical Openreach for British Telecom (UK Shift).
- Recommend new products or services or suggest improvements as per requirement.
- Establish and maintain good rapport with customers by using positive language, anticipating their needs, and updating customer documentation.

Selected Projects

- | | |
|------------------------------|-------------------------------------|
| • Cost Analysis Report | • Workforce Planning & Optimization |
| • Operations Management | • Span of Control Analysis |
| • Departmental Dashboard | • Attrition Analysis & Forecasting |
| • Audit Monitoring Dashboard | • Attendance Management |
| | • Performance Management Analysis |

Education

Master of Business Administration, RDVV (Human Resources/ Marketing)	2019-2021
Bachelor of Engineering, RGPV (Electronics & Communication)	2014-2018

Selected Certifications

- Artificial Intelligence & Business Strategy – PMI
- Advanced Google Analytics – LinkedIn Learning
- Essential Business Analytics – Udemy
- Business Analytics & Intelligence – TheDigitalAdda
- Introduction to Data Analysis – Simplilearn
